National Disability Employment Awareness Month

Held each October, National Disability Employment Awareness Month (NDEAM) is a national campaign that raises awareness about disability employment issues and celebrates the many and varied contributions of America's workers with disabilities.

We all play an important part in fostering a more inclusive America, one where every person is rightly recognized for his or her abilities — every day of every month.

The theme for NDEAM 2011 is "Profit by Investing in Workers with Disabilities," which promotes the valuable contributions people with disabilities make to America's workplaces and economy.
